EXPERIENCE

Frontend Developer — Eau Deals

Apr 2025 - Present | Remote

- Built the full user dashboard UI from Figma designs using React, Vite, and Tailwind CSS.
- Refactored a scattered codebase for maintainability and integrated backend REST API endpoints — authentication flows, product listings, testimonials, and offer sections.
- Participated in agile stand-ups and collaborated directly with the project lead and backend team throughout development.

Frontend Developer — The Millennial Tribe

Mar 2025 - May 2025 | Remote

- Directed full design process from research through testing and implementation, leading to improved site navigation and visual identity.
- Oversaw content production and page design to align with client goals and brand standards.

Shopify Developer (Contract) — All In Lid

2024 - 2025 | Remote

- Executed a full Shopify store revamp for a premium headwear brand running Meta Ads — customized Prestige theme, set up product listings for hats and beanies, and implemented cart upsell logic to increase AOV.
- Built complete Klaviyo infrastructure from scratch: abandoned cart flows, welcome sequences, back-in-stock automations, new drop campaigns, and popup email capture, driving \$10K+ in sales within 2 weeks.
- Managed SEO, Google Search Console, JudgeMe integration, and tiered discount architecture.

Frontend Web Developer — Wemco (Startup)

Oct 2024 - Dec 2024 | Remote, South Africa

- Collaborated with cross-functional teams on requirements for a new startup platform.
- Researched and implemented emerging frontend technologies to improve online customer experience.

Frontend Developer — Mineuniverse

Jul 2024 - Oct 2024 | Remote, Germany

- Integrated UI elements into web applications in close collaboration with back-end developers.
- Debugged and optimized existing codebase to resolve performance bottlenecks.

Shopify Developer (Freelance) — [Rhema Christian Church](#) 2024 - Ongoing | Remote

- Built and maintain a full Shopify website with dedicated pages for 4 ministries, a branches directory for 8+ locations, a weekly sermon blog, and an online counseling section.
- Manage all ongoing content updates and event announcements.

Shopify Developer (Freelance) — [Modern-Mensch.com](#) Mar 2023 - Jun 2023 | Remote

- Built a fully responsive Shopify store optimized for cross-device performance.
- Established coding standards and best practices for the project team.

Shopify Developer (Freelance) — [Chamaksociety.com](#) Oct 2022 - Jan 2023 | Remote

- Identified and implemented process improvements that reduced client support requests.
- Maintained and corrected existing Shopify application code for improved stability.

Shopify Developer (Freelance) — [Exemplifyam.com](#) May 2022 - Aug 2022 | Remote

- Collaborated with project managers, designers, and developers to deliver tasks on time.
- Debugged existing functionality and optimized code to improve overall output quality.
